- 1 - This service code reflects the submitted code and units. The line has been split for processing. The individual units have been considered separately and the claim adjudications may appear on multiple EOBs. V45
- 2 - The member's plan provides benefits for covered expenses at the reasonable charge for the service in the geographical area where it is provided. In certain circumstances, especially where the service is unusual or not often provided in the geographical area, the reasonable charge may be determined by considering other factors, including the prevailing charge in other areas. You are not part of our network and therefore we cannot prevent you from billing the member for any balance. But if you do, we reserve the right to challenge your bill.

Note: Some state laws prohibit you from balance billing a fully insured member. Confirm the member's plan funding, then refer to the state's regulation. [W39]

- 3 - While the member's plan covers this service, it may limit the number of times we allow it. The member reached their plan's limit. [710]
- 4 - This service code was originally submitted with multiple units and was split for processing. The individual units have been considered separately and the claim adjudications may appear on multiple EOBs. [V40]
